Kid's Chance of PA,

I am really thankful and appreciative for the generous gift of a scholarship that was given to me. I became eligible for the scholarship when my father had an accident at work. It was very detrimental to my whole family and I. With my father being out of work, the financial burden of continuing my education in college started to soon become a scary thought. This scholarship helped take some of the worry away.

I am currently studying chemistry at Duquesne University, and I couldn't be happier with where I am in life. This scholarship is letting me set my dreams high without having to deeply worry about the financial ends of things. This scholarship is a blessing, and it is helping me become the person I have always wanted to be.

Thank you so much,
Hannah
